Math 2422 Fall 2013 Syllabus

**Time/Place:** TR 11:20 - 12:45 am, W 11:30 - 12:25, DH 125.
Note that the time is different for Wednesdays.

**Instructor:** J. Campbell, DH 213
  e-mail: jtcdyn@gmail.com, or jcampbll@memphis.edu  ph: 678-2493
  In general, it’s easier to reach me by e-mail.

**Office Hours:** TR 1:30 - 3 pm, and by appointment.

**Text:** *Multivariable Calculus*, by Briggs, Cochran,. This is available in paperback. It is the same book used by the non-honors Calc III sections. We start in Chapter 11 and go.

**Grading:**

- Homework will be assigned daily, but collected sporadically.
  Instead of collecting the homework, quizzes will be given randomly, about 1 per week (some weeks 2, some weeks none). The quizzes will be based upon recent homework assignments. They last about 10 minutes.
  The lowest 2 quiz grades will be dropped, the rest averaged as one exam grade, i.e., 20% of your grade.
  2 in-class exams, each worth 20% of your total grade.
  1 Final Exam, 25% of your grade.

- Computer Work: We will use Mathematica and/or Maple for some assignments. We will drop the lowest grade and average the rest, worth 15% of your grade.

**Grade Ranges:**

- A: 90-100%
- B: 79-89%
- C: 68-78%
- D: 57-67%

  I use plus/minus grading, top two/bottom two points in each scale, except no A+ and no D− (they don’t exist in the system).

**Final Exam:** Monday Dec. 9, 10:30 a.m. - 12:30 pm, DH 125. The final is mandatory.

**Motto:** If you don’t do your homework, then you will fail.
